

# CREDIT FOR PRIOR LEARNING

For students interested in earning college credit for previously acquired knowledge, ESU provides a mechanism by which a student can decrease the time needed to complete a degree. An enrolled student, or a prospective student who subsequently enrolls, is permitted to earn university credits in a variety of ways. These means permit a high degree of quality control. Among them are: credit by examination and/or advanced placement as determined by CLEP tests, Advanced Placement tests, or department-developed tests; military service credit, Cambridge examinations, other approved external examinations and independent study or research problems credit. Total credit earned by means of examination may not exceed 30 of the 120 required for graduation. For information contact Sheila Markowitz at [smarkowi@emporia.edu](mailto:smarkowi@emporia.edu) or call at 620-341-5152.

## ADVANCED PLACEMENT

If you have taken advanced placement courses through high school programs, you may be eligible for advanced placement and/or credit. The advanced placement course is administered and graded by the Educational Testing Service. High schools interested in more information should contact the Advanced Placement Program, P.O. Box 6670, Princeton, New Jersey 08541-6670. **To request a copy of the Advanced Placement Grade Report, write to the Advanced Placement Program, P.O. Box 6671, Princeton, New Jersey 08541-6671, call (888)-225-5427, or email [apstudents@info.collegeboard.org](mailto:apstudents@info.collegeboard.org). The ESU Code is 6335.**

**ESU accepts advanced placement exam scores in several areas and assigns pass credit rather than grades. The only fee is assessed by Advanced Placement. If you enroll in a course for which you have already received advanced placement credit, the previous credit will be cancelled.**

## COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

ESU awards credit for passing some of the CLEP general and subject examinations. If you believe that through experience you have a knowledge of the material that would be taught in one or more courses in a particular area, you may want to take a CLEP exam. Students are urged to secure current policy statements on the use of CLEP credit from the Office of the Registrar before taking these examinations. ESU does not administer the exams. **For more information about taking the exams write the College Level Examination Program, P.O. Box 6600, Princeton, New Jersey 08541-6600, call (800) 257-9558, or email [clep@info.collegeboard.org](mailto:clep@info.collegeboard.org).** The only fee is assessed by CLEP. If you enroll in a course for which you have already received advanced placement credit, the previous credit will be cancelled.

Earning credit in general education by means of CLEP examinations does not automatically satisfy requirements in majors or teaching fields. Each school or department within the university has different curriculum requirements and may use the scores in different ways. Students are urged to consult with division chairs on the use of these examinations.

The following CLEP examinations have been approved for use at ESU.

## MILITARY CREDIT

College credit may be granted for military experience as well as certain service school courses. Students requesting college credit should submit a DD214 form or Joint Services Transcript (JST) to the Registrar. Credit for service school courses will require certificates showing satisfactory completion.

## CREDIT BY DEPARTMENTAL EXAMINATION

Several departments offer credit by examination which are similar to final examinations given in the courses. In most cases, the grade of "P" is used. If you are interested in receiving credit in this manner, contact the department from which you want to receive credit for details about exam requirements.
